

Telesphere On 2011 Inc. 500/5000 List Of Fast-Growing Private Companies

*Leads Rankings Among Large Cloud Communications Providers
Cited For Sustained Growth Over Last Three Years*

PHOENIX – Aug. 24, 2011 – [Telesphere](#), a national leader in cloud communication services for businesses, has been named to *Inc.* Magazine’s 30th annual 500 / 5000 list of fastest-growing private companies in the United States. The list represents the most comprehensive look at the most important segment of the economy—America’s independent entrepreneurs.

Telesphere placed No. 965 on the full list of 5000 companies, at No. 33 on the telecommunications list and No. 18 among Phoenix-area companies ranked by Inc. The magazine for business entrepreneurs cited Telesphere for growth over the last three years of 315 percent. Further, Telesphere’s 2010 revenue of \$21.5 million ranked it first among providers of cloud communications services, the company claimed.

“We’re certainly very pleased to see that our dedication and hard work to grow our business by satisfying our customers’ needs for innovative business communications services over the last several years has been noticed by Inc. Magazine,” said Telesphere CEO Clark Peterson. “But rankings aside, we’re going to stay focused on what we can do to win our customers’ loyalty with the best mix of services and support they can buy.”

About Telesphere

Telesphere is a nationwide managed cloud communications provider for businesses delivering an innovative package of Unified Communications, hosted VoIP, Internet connectivity and video conferencing services to businesses throughout the United States. As one of the first companies to offer hosted, enterprise-level communications as a service (CaaS), Telesphere allows businesses to enjoy all the latest voice and data features of large enterprises without costly investment in on-premises equipment. Telesphere’s more than six years of CaaS experience to businesses throughout the United States places it at the forefront of companies that specialize in the convergence of office PBX phone service, cellular phones, PCs and [Unified Communications](#) features. Telesphere fully manages its customers’ services over a private IP facilities-based network.
